## **1.HOW WELL DO YOU UNDERSTAND YOUR RESPONSIBILITIES AS A POSITION HOLDER? JUSTIFY WITH AN ANSWER.**

I always agree that understanding the job role is the most important aspect when applying for it.Understanding the responsibilities helps in carrying it out perfectly without being interrupted.It is also important to investigate the limitations that could stop you from fulfilling the responsibilities.Because figuring out the lack of skills required helps in acquiring them and makes us more eligible to hold a position.So, Before taking up any position ,I always analyse the responsibilities.

## **2.WHAT CHANGES YOU WANT TO MAKE IN AN ORGANISATION SUCH AS SEDS TO MAKE IT PAN INDIA AND HOW DO YOU PLAN TO CONTRIBUTE TO IT?**

I suggest that new chapters can be generated in colleges across India and extra executive positions can also be created.Innovative projects from colleges all over India can be selected and can be recognized by the board.Conferences and competitions can be held in colleges in every state of the country.

## **3.HOW MUCH TIME WILL YOU BE ABLE TO SPARE FOR YOUR JOB AS SEDS INDIA POSITION HOLDER?**

As a position holder, I'll be ready to work anytime if the situation demands.I believe that completion of allotted work is important and the time I spare depends on it.

#### **7.HOW DO YOU PLAN TO RAISE FUNDING FOR VARIOUS ACTIVITIES THAT HAPPEN IN SEDS PROJECTS OR OUTREACH?**

Participating in competitions could help in raising funds.We could also offer tutoring services. It is the most comfortable

idea as it allows us both to gain knowledge and to raise funds. A youtube channel can be created and our project videos can be published in it.

## **9.CASESTUDY:**

**Two different chapters under the SEDS India board want to conduct a similar experiment in their respective colleges.As a person you are aware of the fact that your college is better in the facilities for the experiment but you cannot be biased.How do you find a way out?How do you allocate resources?And if you are cutting one of the experiments ,how do you justify?**

I would ask them to make a list of all the resources required for that experiment and announce that the chapter which has acquired most of the resources would be chance to conduct the experiment. And the other chapter whose experiment was cancelled would be given more preference to conduct the upcoming experiment.
